

Space, and refers to the entities aboard the ship Spectra. Spectra, like many UFO-related names, sound totally fake, right out of science fiction, and many readers of UFO literature have objected to this seeming comic-book flavor. Uri asked Puharich, "Why the Hollywood name?" Williamson's book, *THE SAUCERS SPEAK*, is especially full of these strange names. I realize these names are strange, but on the other hand, I'm quite sure that people like Dr. Puharich and Williamson, who have extensive educational and professional backgrounds, could make up far more convincing sets of identity if they were intentionally creating falsehoods. I think the problem here lies in the limited ability of the UFO-nauts to understand our language. If they have been monitoring our communications systems, it might be quite reasonable for them to choose these names as being good for recognition in our language. I would not have been surprised to find their ship named the 'Star Ship Enterprise.'

To find my way back from the digression: when Puharich asked IS when this mass landing would take place, the reply was, "We will not reveal to you our timetable in landing on earth in your local time. It may be some years, or sooner."¹⁴ This coincides with the Hatonn source, which says that the exact time of the cycle change will be dependent upon the consciousness of all of us, as we help or hinder that change, and that the time when landing will be possible is dependent upon the degree of acceptance of them which they find on earth at the time of the cycle change.

I had been given a fairly exact date for the desired mass landing, and when I talked with Puharich in 1974, I asked if he had such a date. It turned out that we both had the same information. However, there may be a delay from that desired date, due to the slow dissemination of information about the UFOs' purpose and the acceptance of that information by man on Earth.

IS tackles the question of why the UFO-nauts don't contact our government:

"Andrija, many people in the U.S. Government and the Russian Government know about our existence. We do not give them any breaks to know us better. They only know that UFOs are real, nothing more."¹⁵

Their lack of interest in our politics is due to their own feeling about governments:

"But we do not desire your world, the Earth, but we desire instead that you should develop it."¹⁶

* * *

The UFO-nauts view all of the Earth's peoples as being the same. They are not interested in our government, science, or any facet of the normal mechanics of our civilization. To them, all of these are of a very primitive nature. They are interested in the development of man himself, and care far more about the nature of his manifested higher body or aura than his scientific or political credentials. For this reason, many of the contactees are persons of no great importance to the society, though their vibrations are exemplary. It is easier to see why they do not contact government or other officials if you consider what would happen if they had been in the skies in the time of the Caesars. Do you think they would have been keen to contact Rome's top scientist, or the politicians of the day? No, their interest in us, their service to us, is not societal or indirect, but personal and individual.

"AP: May I now take Uri to Captain Mitchell to start experiments?

You were not given permission to do this.

AP: Since you indicated two days ago that I may tell everything, may I reveal your presence to any outsider now?

Not yet. You may start a motion picture and reveal everything. You may go ahead with everything but do not reveal to anybody yet that we are truly so near to you."¹⁷

The UFO-nauts desire a dissemination of information about their presence, but they are aiming for a method of advertising that does not bully the customer. They want Earthmen to be made aware of their presence and their message in a gradual way, and they are in some instances not quite sure just how much can be tolerated by the public without producing difficulties from adverse opinions and fear.

In URI we see again the UFO-naut's attitude towards contact with us. Even though it seems cumbersome to deal with the seeming hocus-pocus of contactees instead of just landing in plain sight of all and dealing directly with us, yet still this indirect way is preferred. Because not all of the population of our planet, by any means, wants this forced addition to their sure knowledge. Not everyone wants their world to expand. As IS put it:

"We have been checking out all the human race, and we came to the conclusion that only panic and disaster may appear when we will land on your earth in a few years. We wanted to give you, and test you, how deep in conscience you can go in telling the

human race that we people exist—we creatures, as you call us in science-fictioned terms—on earth. . . .

“ . . . the human race is an anxious and unacceptable race. Andrija Puharich, Uri Geller, and Shimshon Strang, we still need your will of mind for our purposes, and we shall keep on using you. From today . . . you will be completely independent. You shall decide for yourselves. You shall go on with work. The way you figure out, that is the best. But you must stay in close contact with us.”¹⁸

G. H. Williamson also suggests that, to the UFO-nauts, we are an “anxious and unacceptable” bunch:

“Many people today are asking: ‘If spacemen are here, why don’t they land and contact our leaders? Why don’t they explain their mission?’ Did these same individuals ever stop to think that no sane Earthman would descend into a pit of crawling rattlesnakes? With all Earth’s strife, with bloody wars that carry thousands of men, women and children to slaughter worse than any Circus of Nero or Medieval Inquisition, is it any wonder that spacemen have not landed here?”¹⁹

Although from our own point of view this seems a rather harsh thing to say about man on Earth, from the standpoint of our own ideals of behavior, our wars and other negative acts do seem indefensible. So that, from the unflinching standpoint of our own ethical standards, we would have to say the same harsh thing. I personally do not have the answer to how we can stop wars, for each time we see men do things to people we care about which are harmful, they become our enemy, and it seems right to defend ourselves. To get from where we are to the point where there are no wars will take plenty of meditation!

I have stated earlier that the only real result of our lives on Earth is the evolution of our essential selves, call it the evolution of mind or progression of spirit. The UFO-nauts want us to arrive at a more evolved state of thinking by the only process which is effective in causing real evolvment: our own independent seeking of the truth of the meaning of our existence. The visitors to our planet are very willing to help us, but always they back off before a contactee can prove his source. Always they let the contactee tell his story at second-hand. Then the stimulus of other life in the universe will occur only to those who are ready to hear it. As the UFO contacts say, the knowledge of all truth is within everyone. Meditation can stimulate the memory of our true nature and relationship to the creation.

There are strict rules of Confederation contact with planets such as ours. The non-interference rule which governed the STAR TREK crew covers it very well.

There is another problem in dealing with this “anxious and unacceptable” people of Earth: many in our society do not desire mental evolution in the direction of these particular UFO-nauts. The Confederation is a group strongly polarized in philosophical or spiritual terms towards the “good”, towards unity of all things, towards merging in oneness with the Creator. In sharp contrast, many of our people are on a path of separation, of self as set against the rest of the universe.

The Confederation sees this line of separation as an error but respects the right of each man to choose his own direction. You can see that, although the message of these Confederation brothers is spiritual, there is nothing of religion proper in their approach: they do not believe in the “hard sell” type of conversions! When Puharich asked IS whether the mass landing would still take place, if the Earth’s people remained “unacceptable,” IS replied, “There shall be landings on Earth. But the landings might be invisible, and only visible to you.”²⁰ Many contactees comment on this ability of the craft to seemingly appear to some and not to others, and to appear and disappear from our skies instantly:

“But there is another way too in which we are capable of working. That is in projecting our astral bodies into the third dimension. In other words, fourth dimensionally we can project into your third dimension. The experience would be extremely real to you, and of course real to us, but it is not the physical body that you would see at that time.”²¹

“Not all will see the spaceships, because some of them are etheric in nature . . .”²²

“It has not been seen in the physical, but it shall be seen by those who have eyes to see. And then, when it is necessary, after most of the cleansing has been completed, it will take on material form. But nothing would be accomplished by materializing the ship at this time. Other ships have been seen coming from the etheric into the material and then dematerializing, and little has been accomplished except to make a very, very few think and spread the word.”²³

“That is why some of you see spaceships and others do not. They are actually vibrating at a different frequency. Sometimes they can change their frequency to correspond with your visual or your physical sightings or senses. Then you or a group can see them. But for the most part they are in operation

he enters its physical plane.

His purpose in coming to Earth is twofold. First, he hopes to advance his own vibration or thinking by experiencing the strong catalyst of our physical world. It is a sort of trial-by-fire approach, the chance to advance more rapidly than is possible in less dense vibrations. Secondly, he hopes that he will be able to reawaken the dormant memory of why he came to Earth, and so be able to carry out his mission of service to Earthmen by helping to increase their awareness of universal reality.

It is not a foregone conclusion that the 'apple' will remember who he is and what his mission is, but most 'apples' have at least a strongly developed tendency towards meditation and contemplation, so that gradually many are indeed able to recapture at least a portion of that memory. Here is the portion of OTHER TONGUES which deals with this:

"There were several statements made in THE SAUCERS SPEAK that are significant in connection with these "Wanderers" or "Apples". "Seeds may be planted but they can rot and never reach maturity." This means that the people of outer space knew what was going to develop on Earth. They "planted" some of their own people here; "salted" them away like "apples". But every seed that is planted or "salted away" does not grow and reach maturity; it may rot in the ground because of many conditions. Therefore some of the "Wanderers" now on Earth do not know who they are—they are lost in the ways of the Earth, and on physical death will return to their own worlds. They will be none the worse for their experience, except that their mission will not be accomplished.

"Space intelligences knew that a certain percentage of the "apples" would fall by the way, therefore enough of them incarnated into Earth bodies to make up for this inevitable deficiency."¹

The source who channels through Nada-Yolanda says much the same thing:

"You have people who have come from other planets who know no such thing as life on other planets, who even may not believe in life on other planets. Yet, they are in your Earth's atmosphere waiting, living the life—normal, so-called average, everyday, prosaic lives, according to you who are studying—and they still are receiving.

"Their teachers are around them. Their high Selves know who they are and what their destiny is. Not everyone will succeed. Many will go through the life experience and never be aware, and waste or not make gain. But they are neither to be judged nor condemned."²

The concept of there being entities from other worlds is an intriguing one to many people who indeed have never felt at home on this planet, living the Earth life. In general, "apples" are said to be poorly suited to the third density vibration, and

have problems adjusting to the socio-economic web of our culture; indeed, often they also have persistent health problems. But they do not appear alien or extraordinary: they are just people:

"...there are many people on Earth that don't really belong here! This doesn't mean that they came here aboard a Flying Saucer, disembarked, put on a tweed suit, polished up their English language and moved into the house next door. It does mean, however, that there is a special class or order of beings in the Universe that are different from the rest because of the fact that they wander from one world to another, and from one system to another."³

These people, however, tend to be set apart by their inherent bias towards the kind of love and brotherhood-oriented message that the Confederation is bringing. That is what it is hoped will happen to the "apples": that they will awaken and remember that they are here to give light to Planet Earth.

From the early Williamson book, THE SAUCERS SPEAK:

"Ponnar speaking. There are now many young people in your world who understand our message. They will accept it quickly for they are of the New Age. The Great Awakening is here. Many of our people are in your world now . . ."⁴

And, from Nada-Yolanda:

"We have contacted key units because they are teaching this new understanding or Aquarian development now. That is why we come through in this way. Why do we not come through to your government heads or your very educated scientists; education, to your way of thinking, of course? Because they could not change the temperature of the mass consciousness, for they do not believe in thought transference or thought control or thought power.

"But your key units do, and that is why we contact them primarily; secondarily, because they are us. Many of them have incarnated purposely from our realms, dimensions, and other planets to do this work, knowing how to do it.

"We ask you to remember it. We ask you, and stimulate you through our control and through our interest in you and through our mental communication and spiritual education with you, to do this. That is why we have concentrated for so many years—twenty-five years, to use a loose segment of time—in teaching these New Age thoughts to those already planted, so they could begin to regulate the thought temperature of mass-consciousness. It takes time. Now is the time for us to show ourselves and to make the project a physical manifestation."⁵

The extraterrestrial source known as Ishkomar adds its footnote on 'apples':

"By mutual agreement between a planetary dweller and an inhabitant of our craft, the knowledge and the memory of one of us may be blended with the

'J' was a brother . . .

'B'?

'B' I know. She was my sister.

WHERE?

In the clan.

A sixth person, 'J', was mentioned by two, but not by the third, as being part of the clan and of this mission. It is possible that he was sent to take the place of 'E', after his death, though this is never said by any of the subjects.

Now, this 'mission' which has been talked about: what is it? Williamson describes it thusly:

"So there are several million people in the world that have nothing to do with this world as far as learning anything from it that they haven't already acquired. They either passed through many lives on the Earth planet itself, or they learned the same lesson on another world similar to our Earth. At any rate, they are far ahead of the average Earth man or woman. Why do they come back? The answer is, because they want to help; they feel that there is something far more beautiful for man on Earth to attain."¹³

And OAH SPE echoes this:

"To serve others, is to do good unto others; to help them; to teach them; to give them joy and comfort. This is the service of Jehovah. . . . But good works alone are not sufficient to attain the highest grades, for they require knowledge and the capacity to unfold others. To accomplish which, those of the higher grades shall oft return to the lower and learn to lift them up. For this is that which calleth the ethereans in the times of resurrections. Wherein the righteous, who are yet mortal, begin at once lifting up their fellows. Which labor is to the spirit as exercise is to the mortal body, that which giveth strength. Judge then thyself, O man of the earth, as to the place thy spirit will rise in the time of thy death."¹⁴

And here are 'C' and 'B' talking about the mission:

C

YOU DECIDED TO COME BACK TO THE EARTH, THEN. FOR WHAT REASON?

Two reasons. I knew that I wanted to help this planet. It is in a bad way. And a lot of people that are here are calling out, they want help very badly, and you can't help unless you are in the body here. It's very intense here. There's no way to get into the . . . enough to help, without infringing on free will, unless you're in the body. There are no easy solutions here.

AND THE OTHER REASON FOR COMING BACK?

It was my own criticism of myself that I did not know how to give without receiving. I felt that I needed an experience that would express what I knew without expecting a return.

B

DO YOU HAVE SOMETHING ELSE TO LEARN, OR SOMETHING TO TEACH? SOMETHING TO BRING FORTH IN YOUR LIFE?

Teaching is learning. That is one. They're both one.

NOW ARE YOU FULFILLING YOUR ASSIGNMENT IN SOME WAY NOW?

About to. All the pieces are ready. Not quite ready. Gathering together. They are gathering. This is a gathering time. The things that I must work with are not all gathered yet but are coming.

NOW, WHAT IS THE NEXT DEVELOPMENT, WHEN WILL THIS PLAN BE PUT INTO EFFECT?

A meeting. One piece, one piece—is a meeting, soon. Ah . . . only one piece. Other pieces, gradually, will come. Four years to do it.

WHERE WILL THE MEETING TAKE PLACE?

I don't know. That's only one piece of it . . . but that will bring . . . threads together, some of them.

WHAT WILL BE THE RESULT OF THE MEETING, THE FINAL OUTCOME?

More—more threads joining. To complete the—to complete . . . um, again, magnetism, electric, it has to do with the same threads, those threads, joining.

And so now is the time when the threads are beginning to come together, not only for this little band of 'apples' but for so many others:

" . . . we have sought slowly to bring to you information relevant to the times in which you now find yourselves. We have sought through many of our channels, our peoples walking the surface of your planet, to present through all avenues open to us, whether these be that which you term fiction or fact, data or imagination, something of the change which is about to take place."¹⁵

It is indeed a strange story. Yet it will ring true to the many who read this who themselves have a feeling that they were put here on Earth to help . . . somehow, some way, some day. The Confederation would say: meditate, and your purpose will unfold, from within.

Our subject, 'A', far more than the other two,

Tassel claimed telepathic contact with the UFO-nauts both at a distance and in person. By the latter I mean that he claimed that the very "normal" looking space man who accompanied him on the space ship would answer his questions before he could verbalize them. George published information he had received from the Great Pyramid at Giza to a time machine he was building as a result of instructions from the space people. This time machine, which he called an integratron, still sits in the Mojave Desert near Van Tassel's small airport at Giant Rock, California. He claims that the reason it won't work is that the space people have never come back and calibrated it for him.

Needless to say, Van Tassel was never taken seriously by the bulk of the scientific community. I spent a week at Giant Rock in 1964 getting to know George and doing a little more detective work. Although I have no way of vouching for the validity of his claims, I can say that he displayed the characteristics of the people who were involved in my telepathic experiments, and was able to display the same type of seemingly telepathic response with which I had become quite familiar in that connection.

At any rate he is one of the classic contactees and some of his material fits nicely into my theory of ufology.

"O mortals cast in density of form, I center the Light to guide your way. My Light is not seen by those who observe only the density of figure.

"Neither can I violate the Laws I have made in the Wisdom of My eternal ways. I cannot but stay at rest with you, hoping that the best will reach for Me, that I may bring your perception into the Light.

"Man closes doors, man hides himself. He binds himself to possessions of dust, not realizing all is lost to him and lost to Me. For only by the progression of thee do I progress. My parts are scattered throughout My boundless Being. I move in many ways to fashion My completeness. Each part shall find the resurrection in Me, though the time is recorded in the records lost in space. My eternity is only complete in the patience of Myself in thee.

"And so I wait within, with the knowing that My beginnings never end.

"O man, in the everchanging pattern of My thoughts I bring My creatures into being. In seeing motion all about, never doubt that I am there. For I am motion, change, and time, so that My rhyme of repetition may cycle all My parts.

"Your eyes reach out to see the stars, not realizing each has stars within. Though sin may barricade your

way to Me, change will be your sword to rend the veil and I shall hail you in your victory over self.

"Though My time is naught to Me, time to you is meant to be a gauge to register progression in My ways.

"Motion is the Me in thee, O man, to manifest a change, so that in time you may escape the rhyme of rebirth repetitions and be timelessly the peaceful thought of Me—eternally."¹

* * *

"There are twelve densities in the system we occupy. Each of these is divided into twelve major cycles. Each major cycle is divided into twelve minor cycles. When a solar system moves out of one density into another, it is called a master cycle. The solar system that we are in is now in the arc between the Third and Fourth densities. For the planet Earth and this solar system, this is the time of times. The Earth is culminating a minor cycle, a major cycle, and a master cycle all at the same time. This will bring about a rebalancing of the planet on new poles. When this occurs, the great earthquake written of in Revelations will take place."²

George is saying that due to the rotation of our galaxy, or some more complex relative motion through space, our planetary system is making a cyclical transition which will result in changes in the basic atomic structure of our physical environment, including our physical bodies.

Another source says:

"... our understanding of time relates to *magnetic cycles*. Perhaps we have imperfectly expressed ourselves on this score in that we cannot seem to convey to you the relationship between cyclic time—magnetic cycles—and your understanding of time."³

Oahspe speaks of the termination of the previous cycle:

"So Jehovih said: Now will I prune the earth and her heaven. Behold the division of Wagga shall be hewn off and cast beneath the waters of the ocean. Her heaven shall be no longer tenable by the spirits of destruction, for I will rend the foundation thereof and scatter them in the winds of heaven.

"Go ye, therefore, down to the earth and provide nets and vanchas for receiving the spirits of darkness, and for receiving the spirits of mortals who shall perish in the waters. And provide ye a place in my exalted heavens suitable for them; and ye shall wall them about in heaven that they cannot escape, but that they may be weaned from evil."⁴

* * *

"My ethereal ships of fire shall surround Wagga on every side. And I will cut loose the foundations of the earth, at the borders of the ocean and the mountains of Gan, nor shall any prop or corner-stone stay My hand. And I will send rains and winds and thundering; and the waters of the great deep shall come upon the lands, and the great cities shall go down and be swallowed in the sea."⁵

Here is the Hatonn source on the same subject; except that he is speaking of the end of the *present* cycle.

There are many vibrations within this creation. It has been written in your Holy works that "in my Father's house, there are many mansions." This was a statement of these conditions. The mansion, or vibration, in which an entity finds himself is a result of his desire. If there is a separation, or choice, to be made, then it is up to each entity to select, according to his desire.

For that reason, we visit your planet at this time, to attempt to help those who could wish to make their choice. There are many who have chosen already, even though they are not aware of it.

There will be an experience in this illusion, in the not-too-distant future, which will be alarming to some of the people of this planet. We are attempting to provide an understanding of the truth of this experience prior to its occurrence. Our service is to aid those who wish to choose a different mansion.

If an entity has chosen a particular mansion, then he will receive it. It is not a good or a bad place. It is simply a different place.⁶

There are several events that will occur. There will be events of a physical nature. These events will be, from the point of view of those who are living with the illusion, of a very destructive nature. However, there is no such thing as destruction. There is only change. This you must understand. If you understand this, then you will understand the truth of what is to occur.

There will be change, a physical change. This change will be very beneficial. However, the people of this planet who view these changes from their present state of ignorance will consider them to be quite destructive.

This is unfortunate. However, the people of this planet have had a sufficient length of time to become educated. They have, however, sought to educate themselves in the ways of their illusion, rather than the ways of the Creator. This illusion is so strong in their understanding that most of them have no awareness in a waking sense of reality. These people will be very difficult to communicate with. They will

view the changes in their immediate creation as destructive and irreversible.

Q—Well, is it going to be an earthquake, or a depression, or what?

The changes will be of a physical nature. The depression of which you speak is of no consequence. It would be viewed as nothing compared to the physical changes that will occur. It will be necessary for members of groups such as this one who wish to serve to understand fully the reality of these changes, and to understand fully the accuracy of the statement made in your holy book which states that "Although you walk through the valley of the shadow of death, you will fear no evil." This must be kept uppermost in your consciousness. For you will walk through this valley. And you will demonstrate to those who seek your knowledge of truth and only your ability to demonstrate this knowledge will alert those who seek the knowledge that you are a true and knowing channel. For many false channels will at this time be lost. For they will not be able to demonstrate their knowledge of truth. For they will cling to the illusion that has surrounded them, and will display the fear that this illusion brings upon them.

This change is looked upon by those of us who understand it as an extremely beneficial change. It is also looked upon, by those members of groups such as this one who have realized the truth of this information, as extremely beneficial to all the peoples of this planet. It will be difficult for some of the members of groups such as this one to demonstrate an understanding of these truths, since they have been strongly affected by the illusion that has been created by the people of this planet.

However, this understanding is a necessity to be demonstrated.

Q—What's going to be happening, exactly?

Physical change, of all types.

There will be massive destruction wrought upon your surface. It will be of such a nature as to totally change the surface of your planet. This destruction is within your planet at this time. It has been put there by thought. It has been put there by the thought of the population of this planet through thousands of years of thinking this thought. This thought is of a vibratory nature. You are at this time passing through the last portion of what you know as the third density vibration. Shortly, your planet will be sufficiently within what you know as the fourth density vibration. At this time there will be a disharmony between the thought that creates the vibration that is your planet, and the thought that

dwells within the density that is the fourth.

Much energy will be released of a physical nature. This energy will create physical changes within your planet. There will be changes within your land masses. Changes in your atmosphere.

Changes in all of the physical manifestations of your planet. This will be of a nature that will be considered to be cataclysmic. This is a very good thing. However, it will not be considered good by those that are within the illusion.

Labeling this change good or bad is something that is dependent upon the individual observing the change and his orientation. My friends, the reason for this change being of a cataclysmic nature is that the thought that has been generated upon and in your planet for the past several thousands of years is a thought that is out of harmony with the new vibration that your planet now goes into. The Creator never conceived of the condition that is shortly to manifest upon your planet. This condition is manifested as a result of the desire of all the individuals that dwell on this planet. They are not aware of this desire, but their desire has created this.

They have created a condition by their desire that is shortly to be severely out of harmony with where they will physically be. Due to this, there will be a large energy release, which will manifest itself upon your planet in the form of earthquakes, storms, volcanic eruptions, and in fact a shift of the poles of your planet with respect to their orientation in space.

This change that will shortly manifest itself upon your planet is, as I have said, a result of the mismatching of vibrations of your planet and its new position in space. This change will alert many of the people of your planet who are very lightly slumbering, and many of the ones who are slumbering relatively deep. Many of these people will at this time be what is known in many of your religions as 'saved'. It will save them, because they will get the violent awakening that is necessary to cause them to raise their vibrations that last amount that is necessary to get them off the fence, so to speak.

There will be those who are more deeply slumbering, so to speak, who will not make the transition. It is up to you to provide those who will be awakened with the information that they desire. We have stated that this transition is both good and bad. Ultimately, in its most broad sense, it is a good transition; however, it is an unnecessary transition. In a normal transition there would be no energy release, since in a normal transition, the vibration of the planet would match closely enough and be in harmony with the new and higher vibration. This would result in no energy release, and the planet

would continue in a relatively normal sense from a lower vibration to the higher. Your planet is an aberration in the evolution of the spirit of the people of the planet and the planet. The change that will take place will be a beneficial change. However, the mechanics of the change will seem anything but beneficial.

Those of the people who dwell upon this surface at this time who are totally aware of the results of this change, and the reason for it, will not in any way be affected by this change. Those who are not aware of this, but who are aware of this in a spiritual sense, will be affected only emotionally, because they will not understand. There are the people we wish to communicate with.⁷

The UFO-nauts emphatically feel that this catastrophic time is not absolutely necessary. We could avert it if we came into harmony with the new vibration. In fact, the precise timing of the earth changes depends entirely upon us:

"We of course cannot interfere, but do ask that you who are on the Earth planet work metaphysically, mentally with love in your hearts to eliminate, as much as Spirit will allow to be eliminated, danger, fear, panic, and loss. Thank you. We are on the alert. We do not know when and how some of these will strike. But they are scheduled, from what we can gather of auric conditions and mass thinking in this section of the world, which is very serious at this time."⁸

* * *

"But let me say to you this, that prophecies were given so that Man would have the opportunity to avoid these things. Prophecies do not necessarily need to be fulfilled, for Man's destiny lies entirely within his own hands. You see, prophecies are made by the realization of a pattern, but patterns can be changed, and you, my friends, the People of Earth, have it within your power to change and avoid these things."⁹

* * *

And from Case No. 3, Chapter 1:

"Then he gave us to understand that the little men might represent a threat for all of us in the future. But, as he was not sure whether the danger came from the particular type of individual who had abducted him or from other unknown types, he was at present prepared to have a further meeting with them in order to clarify the matter. In any case, he

understand it, on the basic philosophical level. The UFO sources have a view of the universe and man within it upon which they build all their actions toward us. This is what we are getting from the bulk of these UFO contacts:

The stuff of which the universe is made is consciousness, a single, infinite consciousness. This by definition is the Creator. This consciousness created vibrations through infinite space. This basic vibration is identified in our physical science as the photon, the basic particle-wave called light. This light vibration is the raw material used to make everything that there is within the creation.

The vibrations which were fashioned from light exist over a large range of frequencies, only a small portion of which is apparent within our present physical reality. All atoms, whether within or outside of our physical reality are simply more complex rotations and vibrations of the basic photon.

We are then, a highly complex, vibrational, single, infinite, entity. Presently we are experiencing the illusion of individualization as separate entities, but still we have been created by the one consciousness; and our basic essence resides within the Creator's one consciousness. This original state has been allegorized by the Holy Bible's story of Adam and Eve. In that tale, the serpent coaxes the couple into eating the fruit of knowledge of duality (good and evil), and so they get ousted from the Garden. The UFO-nauts say that the Creator created us with knowledge of our unity with all things, but also with free will and the ability to create as His sons and daughters. Through our free will, they say, man long ago decided to become individualized to the extent that we could no longer find our unity with one another. We were no longer one, we had entered into a man-made universe of duality, of separation from the original thought, which then resulted in the polarization of consciousness (good and evil). From this duality all of our present problems have been generated.

The original creative thought was a thought of the creation in which each part would act in service to the other parts, just as the parts of the body act as a unit, in mutual service to itself as a whole. However, in the man-created world the various parts have ceased being totally and mutually supported, and a far more complex world-reality has emerged. The question of why the world doesn't seem to work very well can be put in focus by imagining what would happen to the natural creation if trees got tired of turning CO₂ into

oxygen and clouds decided not to rain any more. In some cases we humans are still capable of being biased towards service: we are shocked if a mother refuses to feed her new-born child. But we have strayed far enough into isolation to be unable to perceive the unity between us all; so that we tend to believe that there are some whom we should not serve, but oppose.

This Adam and Eve adventure of ours away from the original thought resulted in succeeding changes of vibration, as the structure of the individualizing consciousness proceeded to take form. Back when the individualized man was young he had the full Creator's ability to instantly create that which was imagined. Thus the Creation grew and grew. But as the consciousness of unity was lost, the Creation became progressively stratified so that it came to exist not as one vibration of love but as many vibrations, each a little less rapid than its predecessor. And so evolved the numerous densities of experience, all condensed from the same original vibration, each spanning part of the range from total unity to total separation. This makes for a vast creation of experience, considering that the original consciousness was infinite to begin with.

We are, today, encased in a consciousness many eons away from the condition of total unity. Most of us don't totally like where we've landed in the continuum of experience: worse, most of us don't even remember the journey we took to get here. According to the UFO contacts, we are at a point in the journey back toward the original thought where it is possible for at least some of us to realize our position and make a conscious choice about our own progress. We have been preparing to make this choice for almost a full cycle of experience at this level or density. The time to make the choice is now, for the cycle is ending.

"As fast as the ship passed the lights, the ethereal musicians came aboard, being anxious to meet Hipacha and his hosts, especially the I'hins, and to congratulate them on being the first harvest from the lowest heaven at the end of a cycle. And strange to say there were just twice as many as Sethantes had prepared in the first dawn on earth. Fragapatti called the swift messengers belonging to the roads of Gon, in etherea, and he said unto them: Go ye to Sethantes, whose fields lie in the Roads of Gon, and say unto him: Greeting, in the name of Jehovih! The earth hath reached Obsod and Goomatchala, home of Fragapatti, who sendeth love and joy on behalf of sixty millions, first harvest of h'ak, grade sixty-five."⁴

Grade fifty is the minimum harvestable grade,

according to OAHSPE, the grade indicating that the person is fifty percent for himself and fifty percent for service to others.

Now we are living within the third density of vibration, trying in our rather vague way to learn how to think, not in a complex and intellectual way but in the sense of coming into tune with the original vibration of unity.

I realize that some people are perfectly satisfied with life as it is. I am reminded of the circus janitor who cleans up after the elephants. Upon being interrupted at his malodorous work, shovel in hand, he looks up and smiles. "Say," we quip, "how come you keep on working here. What a job! Don't you want to leave and get a better job?" The janitor laughs in amazement, and replies: "What? And quit show business?" So, some people like this density, and, indeed, there are those who seek a level of experience even farther from unity than ours. If all upon our planet were striving for unity, then the UFO-nauts wouldn't be nearly so elusive. But there are many who prefer their universe as it now is, and do not wish to be bothered with such nonsense.

In OAHSPE, we find Jehovih speaking "out of the light inherent" in the ethereal gardens, stating the situation like this:

"Sixteen times have my ethereal hosts redeemed the earth and her heavens from darkness into light, and yet ere the end of a cycle she falleth again, and her atmospherea with her. And now it hath come to pass that her heavens are filled with thousands of millions of spirits that know not Me and My emancipated worlds."⁵

Here is the 'fallen mankind' described in another way:

"...man so loved the earth and whatsoever ministered unto his ease and to his flesh desires, that he fell from his high estate. And great darkness came upon the earth. And man cast aside his clothes, and went naked, and became carnal in his desires. The Lord went abroad over the earth calling: Come to me, O man! Behold, thy Lord is returned! But man heard not the voice of the lord; for, by man's indulgence, the spirit of man was covered up in his own flesh."⁶

So, mankind, and all entities in the creation, dwell within various densities, in some degree sensitive or insensitive to the original vibration of unity or love which created the universe.

After all of these densities were formed in the Creation, the desire began to be generated to do the inevitable: make a full circle back to the

original unity. Jacob's ladder, with every rung going higher, is a good analogy to this: man has inborn the inevitable desire to seek for the top of his ladder of experience. All over our infinite Creation, entities have progressed, at various rates, on this climb back to the original condition. As entities reach a certain point in their development, they begin to again grasp the nature of the Creator as service to all. At this point these entities reach their hands down the ladder, to help their brothers who are climbing below. *But the law of progression is sustained in perfect free will, so that only those who are reaching up for that help will receive it.* Men have an inalienable right to progress, or even regress, at their individual speeds; there is an infinite amount of time available.

The UFO source states that in the third density of vibration we have tools with which to make our experiences work for our progress: our physical or third-density body, and our higher self, which can detach itself from the physical and experience the finer vibrations of existence which interpenetrate our physical world. Most of the total humanity which has ever been in the physical is at present to be found in the finer planes of existence. The inhabitants of these astral and devachanic regions incarnate into a physical body primarily for the experiences which the physical world can offer. Some within the astral realms incarnate chiefly to experience the pleasures of the flesh. The more spiritually evolved souls of the devachanic regions often desire incarnation into the physical to mature themselves through the catalyst of physical experience, which is much more immediate and keenly felt than experience on higher planes. The astral's objective is easy to understand: he just wants to get back in the game and live it up. To get at the reason that the devachanic entity wants to incarnate, let me just give an example in story form. Mr. Good has, in his previous life on Earth, done a great many nice things, but like all of us, he was in some ways still selfish. After his death, back on the higher planes, he was able to view his life just passed as a whole, and in this perspective his mistakes were apparent. In the higher vibration to which he has come because his vibrations basically are a match with it, all of his companions have his desire for advancement, and thus it is possible to "see" with more discerning eyes what has occurred on the denser planes. The errors become obvious.

Now Mr. Good has an ambition: he wants to correct his mistakes in order to advance his level of consciousness. But this is not easy to do by pure force of will. It must be done in the dense level at

rumors of wars and nation shall rise against nation." What kind of thinking causes this situation, which most assuredly now is occurring? The contactees say, very simply, thought of self rather than service. The problems of Earth, from small to vast, can be traced back to this one choice. The result of individuals choosing to serve self is, ultimately, hatred, war, and crime.

As we enter the cusp of this transition period, with the potential difference between the coming vibration of higher unity and the existing vibration of self-service or separation becoming greater and greater, the positive UFO-nauts feel that the 'sheep' have the greatest chance possible to use this Earth classroom effectively. People can make great progress in these 'last days'.

In addition to the positive UFO-nauts in their craft who are here to aid us, there are many "apples" who are striving to aid Earth's vibration. They have to some degree remembered who they are and what their purpose here is, and they have entered many fields of endeavor to get the message of spiritual seeking spread. Some are in the various fields of communications through media, TV and motion picture production. Some are popular musicians, writing songs about things of the spirit that are on everyone's lips. Some write in modern parable of the eternal truths. Some find expression in their careers of all kinds, touching people through their very personalities and points of view, their simple examples of how to live in harmony. Quite often, the apples are not fully aware of why they have written these songs or words, lived this life, or done these deeds; he or she is simply following an inner direction which is trusted intuitively. I don't mean that one must be an apple to live or act in the described manner, but a great many who so live and act are apples. And all who are led to positive acts are benefiting not only themselves but the Earth vibration as a whole.

A footnote to the discussion about apples is the fascinating fact that the Beatle's recording company was called Apple Records. I have often wondered whether the Beatles were aware of George Hunt Williamson's book.

It is an unshakeable tenet of the UFO sources that though they can aid their brothers of Earth in spiritual seeking, the first step, of choosing to seek, must be made under conditions of complete free will by the individual. Hence is formed the concept of providing an example of higher truth, which alerts the seeking consciousness without giving him any proof as such. To prove the "miracle" or "higher being" to be real is to force the choice of

seeking on people. But this choice must remain to be accepted or rejected without prejudice: this is the mechanical structure of spiritual evolution. In 1963 a contactee in Warren, Pennsylvania, received:

"... there was a great being who descended into the Earth and parted the sea in testimony for the Israelites, but they did not understand. These miracles were not understood, and this shall not happen again."

The miracles we get now will continue to be of a controversial nature so that people who wish to refute them may do so. "Those who have the eyes to see, let them see."

IS was at first very hesitant about giving Puharich permission to have Geller's abilities scientifically tested:

"After you insisted that Uri be validated, counsel was taken higher and higher, and it was decided that Uri could be validated just this once. And he may never be allowed to do such work again under laboratory control."¹³

It would be in keeping with the contactee theory that they might feel that something on the order of scientific proof might be too strong a catalyst for us, so that they would be infringing on our free will. They were correct to allow Geller to be tested, for as they must have finally surmised, people who do not want to trust this proof, simply state that they don't believe that anything has been proven. The desired controversy over Geller has only been enhanced by these scientific tests!

I do not foresee a parting of the sea occurring in the near future; but I do predict that our UFO-naut visitors will continue to feed man on Earth tantalizing bits of evidence of the illusory nature of his world picture. Each of us will find the truth—in our own way.

"The Amazing" James Randi, a professional magician, is quite convinced that Uri Geller is no more than a conjuror, and that his supposed feats of psychic ability are actually well-done illusions. Randi's complaints about Geller include the point of Geller's inability or unwillingness to work when there are professional magicians around. Randi states that if he were trying to do illusions, he also would wish for no colleagues to be around, that is, if he wanted to fraudulently indicate to the public that his effects were not 'tricks' but a demonstration of psychic ability.

He makes a good case on his own terms. The

game has been rather expanded out from under him, of course, by the arrival on the scene, and the testing, of many children throughout the world who have the Geller-type abilities. But the book by Randi brings out one of the main strands of thought that weave into my theory. For this controversy between Geller and his many detractors points up one thing above all: this physical world is very real to us.

And it is for a purpose that this world is so real, so solid-appearing to us. All of us have incarnated into the physical to experience its catalytic effect upon our higher self. It is necessary for this illusion to be real, if we are to benefit from its manifestations. Our ultimate objective while we are in this physical illusion is to work our way out of it, mentally and emotionally. The clues which show the direction this effort should take are subtle, but numerous. It is necessary to set out to discover the true reality by an act of will: it is necessary to decide to seek the truth. The Biblical injunction, "Seek and ye shall find," is the heart of this concept. The truth is all about us, yet we are not forced to behold it. Only when we freely will to seek the truth, shall we find it.

So, the clues which help to start us seeking the truth can never be proveable, blatant, and leaving no room for doubt. All the clues are open questions. The UFO phenomena as well as the Geller abilities will retain that quality of elusiveness, of unproveability, until such time as all of us already have begun seeking. When Randi said, "I cannot choose to believe something because I want to," he had an important truth by the tail, though I think he was holding it the wrong way. It is when we want to know the truth that the truth begins to come to us.

Some people see UFOs, and some don't. There is a reason for this discrimination. A person who is at the proper stage of mental evolution can tolerate the stimulus to seeking which is effected by the

sighting. Likewise in other paranormal events, whether the event happens or not is highly dependent on the state of mind of the observers. When an attitude of seeking along the so-called spiritual path is manifested, the event is also manifested. One real sceptic in the group can nullify results. Randi says he is good at exposing Geller because he is a magician.

I say that I am good at verifying Geller's abilities because I understand the limitations of the phenomena. For the first time in recent history, we have increasing numbers of people performing what seem to be small miracles. This is happening now as a way of gradually breaking the illusion for those of Earth's people who are ready for a new understanding. People who are unwilling to take these clues, like Randi, will be perfectly able to ignore them. Total free will is part of the plan.

One more observation about "miracles". The bent metal and the UFO sighting seem like miracles to us. We are so jaded! A flower blooms, a baby is born, and we think that's no miracle! If we are going to understand the true nature of our environment, it will be necessary to turn off the intellect and become, as a little child, aware of the creation. It makes no difference whether Geller is really performing miracles. His function is to stimulate thinking, not to prove anything. There is no way of proving miracles, for the plan itself provides for rejection of any concept, and therefore for lack of proveability. We are surrounded by not just a few miracles done by Geller and others, not just a history of miracles done by Masters such as Jesus, but by the infinite panoply of the "natural" magic of our world. How did this world of beauty and marvelous efficiency we know as nature come to be? Is it not also miraculous? Yet this beauty also can be accepted or rejected, depending on our philosophical attitude. The whole universe speaks to us. But we do not have to listen.

Dear Ignacio:

Thank you for your letter of April 20th. I am taking the liberty of answering your letter for Carla since the pain of arthritis in her hands does not allow her to write very much any more.

She and I have been ill this past winter so Book Four of THE LAW OF ONE is still not finished. We are nearly back in good health now, so we hope to be able to begin the Ra sessions again next week. When Book Four is ready for distribution, we will send you a copy right away.

Since we are so far behind in our line of questioning in Book Four it is unlikely that we will be able to ask Ra concerning the URANTIA BOOK and the cattle mutilations that you asked about in your letter. Many readers have questions that they would like for us to ask Ra and we must ask each reader to forgive us for not being able to ask each question. We hope that our line of questioning will be of aid to a large number of our readers. The contact that we have with Ra is very delicate and precisely tuned and there are so many things like sickness that can keep us from making the contact that each question and each session is very precious, so we try to use them as well as we can to be of service to others.

The information that you sent with your letter asked why various sources of channeled information varied so much on the same subjects. In our opinion, there are two basic reasons. One is that each source may have a slightly different perspective or viewpoint on the same subject. The channels or mediums may also have certain biases which color the information that comes through them. Dates in the future are always difficult for any source to estimate since the future is not fixed and is always changing according to the choices humanity makes in the present moment. The second major reason for variation in channeled information is that some channels and groups have had their information polluted by the Orion group because they have allowed their desire to serve others be tempted and compromised by the desire to serve the self in some way. When that occurs the positive source leaves silently and the Orion group replaces it and imitates the positive message while lying on certain important points.

Please let us know if there is any further way that we may be of service to you. Please let us know how you are doing from time to time.

In Love & Light,
Jim McCarty

Dear Ignacio:

Thank you very much for your letter, your order, and your questionnaire. I have sent Book Four of THE LAW OF ONE by Surface Mail, and you should be receiving it shortly.

We must apologize for not being able to ask your questions to Ra but we have not been able to have sessions with Ra for almost a year now because of the illness of Carla and myself. We are much better now and hope to get back to sessions in the near future.

We very seldom are able to ask questions to Ra that readers have sent us because our contact with the social memory complex, Ra, is a very precisely-tuned contact. That means that the type of question we ask must be of a certain nature or we will slowly lose the contact. If we ask questions that are as pure as possible in the desire to seek the keys to the process of the evolution of the mind, the body, and the spirit we strengthen the contact. But if we ask questions that merely demonstrate an idle curiosity and whose answers are not primary in the understanding of the process of evolution, then we weaken the contact.

Therefore, I have tried to the best of my ability to answer your questions with information which Ra has given us in the four volumes of THE LAW OF ONE. Please forgive the inadequacy of my answers.

Please let us know if there is any further way that we may be of service to you. We enjoy your letters very much and wish the best for you and your efforts to be of service.

In Love & Light,

Jim McCarty
for Don Elkins
and Carla L. Rueckert

P.S. I left some questions blank because we have no information in those areas.
