

THE SPOKEN WORD

A PERSONAL WORD FROM RAY STANFORD:

photo courtesy Psychic Magazine

Since 1960 I have been able to enter a meditation-induced unconscious state from which extensive information is delivered on many different subjects. Most of this information is given by a voice identifying itself as "the source of the readings," which, by its own testimony, is not a discarnate entity, but rather "the unconscious and superconscious mind and spiritual being of Stanford, in contact with the same of any person or persons (or with areas of knowledge) towards which it is directed by suggestion." Upon occasion, however, information is given by other voices speaking through me from the unconscious state. These voices refer to themselves collectively as "Brothers," as well as by various individual names. The Association for the Understanding of Man and I make no claim that these "Brother" discourses are in fact given by members of the so-called "White Brotherhood," or even that they with certainty come from real entities distinct from my own unconscious mind. We believe that the important thing is the inspirational and practical value of the information given, not the professed source. In other words, truth must transcend mere names and personal identity. Thus, we encourage those hearing these discourses not to believe them simply because they may have been given by high beings, but rather to know them "by their fruits," as Jesus advised us to do concerning all things. We publish such discourses because they have had a positive, catalytic impact on the lives of many individuals. We believe there is a great need for the depth of meaning, purpose, and instruction contained in each tape of *The Spoken Word* series.

A SOURCE OF INFORMATION AND INSPIRATION

Although printed transcripts of Stanford readings have proven spiritually stimulating, those who have been present at readings or who have heard the tapes say that hearing the discourses is much more deeply moving and uplifting than merely reading them. In these troubled times, listening to the readings, discourses by the "Brothers," and inspired talks by persons who have studied and applied such materials, can bring a profound sense of joy rarely experienced. Now, more than ever before, there is the need to respond to and be touched by God-inspired, Love-inspired communications dealing with the most pressing challenges, problems, and opportunities of our times. Personally experience and play for your friends these selections of *The Spoken Word* series. They have never before been made available. These selections are reproduced on convenient, high-quality cassettes, to provide years of exciting and stimulating information and guidance. We guarantee a new and meaningful experience. Order your A.U.M. tapes today from the list of wide-ranging topics described on the other side of this sheet.

Profound Meaning

And Purpose...Reveal

The Deeper You

Except where indicated, recordings are on one 90-minute cassette.

LC-1 (two 60-minute cassettes) MEDITATION: CHANTS, CHAKRAS, AND THE MUSIC OF THE SPHERES

In this information-packed discussion, Ray Stanford "left nothing unsaid," to quote an A.U.M. member who attended the 1974 membership conference. For those who want to really meditate, instead of just think or talk about it, this 'road map' to meditation will discuss the proper 'route', the facts and 'signs' along the way, the means, and the real goal of meditation. Concise techniques dispels the fog of vagueness often clouding meditation and discussions of it. You will also learn the safe use of the *beja* (seed) *mantra*, chants, etc. and learn at what point *not* to use them. (\$6.95)

LC-2 (two 60-minute cassettes) PSYCHIC ARCHAEOLOGY

The keynote talk of the second A.U.M. membership conference, this in-depth discussion takes you on a psychic's search for evidence of ancient civilizations. They date from a pre-man society of extraterrestrial giants that walked the Earth millions of years ago and who left some evidences buried beneath the Peruvian Andes, to 38,000-year-old metallic plates buried in an area frequented by UFOs in northwest Mexico. Closer to the present is Stanford's search for the tomb of Imhotep in Egypt. Also discussed are the evidences already found supporting the authenticity of a site in Israel, located precisely by a Stanford reading, that is thought to contain remains of an Essene community and 149 scrolls. An unforgettable journey into the past, with emphasis on the present. (\$6.95)

LC-3 PURPOSE IN CREATION: TOWARD A MORE MEANINGFUL LIFE

A.U.M. President Dwight Pryor explains the important practical and philosophical difference between the Creation reading's description of the goal of life as "Love becoming individualized" (the Infinite manifesting as the finite) and the often held concept that one must "dissolve back into God." Pryor explains why the Stanford source compares that to throwing the pancake back into the batter, when it is better off as a pancake. The nature of life physically, mentally, and spiritually is discussed, with emphasis on purpose as an ameliorating force in all human affairs. (\$4.95)

LC-4 KARMA AND GRACE

Dwight Pryor "tells it like it is" as he explains the important distinction between karma and grace. Punctuated with lucid examples of very interesting individual karmas described in the Stanford readings, this talk refreshingly dispels some widely-held misunderstandings about the nature and function of karma. It provides a glimpse of the immediacy and accessibility of grace. (\$4.95)

LC-5 SPACE, TIME, AND THE ACCELERATOR

Ray Stanford discusses information given by the 'Brothers' concerning the interrelation of matter, body, mind, and consciousness. The projected construction of a 1.5-million-volt field-effect device called the Hilaron Accelerator, and how it could help us transcend temporal and spatial limitations, is discussed for the first time publicly. (\$4.95)

RAY STANFORD PSYCHIC READINGS

RC-1 THREE BROTHERS

Given on August 17, 1973, at the first A.U.M. membership conference. The 'Brother' Kuthumi Lalh Singh ("K-H") elucidates the nature of 'Brothers' and the 'Brotherhood', following which he discusses the highest form of meditation and true devotion to God. Then Aramda, another Brother, offers guidance, which has proven more than timely, on preparing for economic upheaval and its resultant social chaos. His talk, given when it was, proved prophetically accurate and valuable. Next, Philip speaks on false karmic identities and the opportunity for grace. This talk provides an exciting and informative introduction to the Brothers, both collectively and as individuals. (\$4.95)

RC-2 CONFERENCE READING, AUGUST 9, 1974

"K-H" defines the archetypal meanings of various A.U.M. projects as they symbolically relate to the nature and function of the seven endocrine centers and their higher counterparts, giving new light on the purpose, depth, and meaning of the work. A voice identified as the Archangel Michael gives a discussion of evenmindedness as it applies to properly encountering happiness and suffering, alike, in life—a deeply moving discourse on the true meaning of joy. Lanto, another Brother, provides a fascinating analogy between what happens when electrons change energy shells and emit photons (light), and the "Hilaron Accelerator" and its effects on the physical body as an instrument of spirit. Lanto beautifully explains, even down to the subatomic level, the meaning of the phrase, "I am a *movement* and a *rest*," found in *The Spirit Unto the Churches* (an A.U.M. publication) and in *The Gospel of Thomas*. In conclusion, the Guardian of the New Dispensation provides suggestions and insight on the proper attitudes to hold in praying for crisis-threatened nations. (\$4.95)

RC-3 (two 60-minute cassettes) CONFERENCE READING, AUGUST 23, 1974

The source of the readings provides further insights and guidelines for facing the impending economic and social strife. Then it offers insight concerning discernment regarding psychic phenomena and "false prophets"—some ways we can recognize them. The currently increasing manifestations of both parapsychical and extraterrestrial realities are viewed in relationship to our own destinies. A 'Brother' speaking in a strong Indian accent, identified as Namat Sagariananda, gives clear and usefully precise instructions on how to use the *beja* (seed) *mantram*, for the heart or thymus center, in combination with the Hebrew name for Mary, Jesus' mother, to imbue mind and body with greater devotion to God and to the fulfillment of that symbolized in Jesus' mother (see *Fatima Prophecy*). Those who have already put this fascinating technique of devotional chanting to use have reported meaningful increase in their devotion and meditative experience. Brother Philip gives what many have described as the most spiritually moving discourse they have ever heard, relating some of his personal experiences with the Master Jesus. "One Who Serves" closes the session with some pertinent observations. The evening was described by many as unforgettable and forever-inspiring. We believe it can touch your spiritual life in the same way. (\$6.95)
